## Office Action Summary

Application No.

09/559,693

Applicant(s)

RANOUS ET AL.

Examiner

Barbara N Burgess

Art Unit

2157

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 24 November 2003.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

- 4) ☒ Claim(s) 1-10, 21-29 and 36-39 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☒ Claim(s) 1-10, 21-29 and 36-39 is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

### Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

### Priority under 35 U.S.C. §§ 119 and 120

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some \* c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
  - ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.
  - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- \* See the attached detailed Office action for a list of the certified copies not received.
- 13) ☐ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. § 119(e) (to a provisional application) since a specific reference was included in the first sentence of the specification or in an Application Data Sheet. 37 CFR 1.78.
- a) ☐ The translation of the foreign language provisional application has been received.
- 14) ☐ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121 since a specific reference was included in the first sentence of the specification or in an Application Data Sheet. 37 CFR 1.78.

### Attachment(s)

- 1) ☒ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☐ Information Disclosure Statement(s) (PTO-1449) Paper No(s) \_\_\_\_\_
- 4) ☐ Interview Summary (PTO-413) Paper No(s). \_\_\_\_\_
- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: \_\_\_\_\_

Art Unit: 2157

### DETAILED ACTION

This Office Action is in response to Election Response filed November 24, 2003 due to a Restriction Requirement filed October 22, 2003. Claims 1-10, 21-29, and 36-39 are presented for examination.

#### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-8, 21-27, 36-39 are rejected under 35 U.S.C. 102(e) as being anticipated by Skinner et al. (hereinafter "Skinner", 5,963,914).

As per claims 1, 21, and 36, Skinner discloses a network usage system having multiple level distributed data storage system, the system comprising:

- A set of first level network data collectors, wherein each first level network data collector receives network accounting data from a network data source, processes and stores the network accounting data at the first level network data collector (column 3, lines 45-52, 57-67, column 4, lines 1-14, 24-28, 33-38, 54-57, 61-67, column 5, lines 31-34, column 7, lines 19-27, 33-34, column 10, lines 29-36, column 16, lines 42-45);

Art Unit: 2157

- A set of second level network data collectors, wherein second level network data collector receives processed network accounting data from one or more first level data collectors, processes and stores the network accounting data at the second level network data collector (column 3, lines 45-52, 57-67, column 4, lines 1-14, 24-28, 33-38, 54-57, 61-67, column 5, lines 31-34, column 7, lines 19-27, 33-34, column 10, lines 29-36, column 16, lines 42-45).

As per claims 2 and 22, Skinner discloses:

- A third level network data collector, wherein third level network data collector receives processed network accounting data from first level data collectors, second level data collector, processes and stores the network accounting data at the third level network data collector (column 3, lines 45-52, 57-67, column 4, lines 1-14, 24-28, 33-38, 54-57, 61-67, column 5, lines 31-34, column 7, lines 19-27, 33-34, column 10, lines 29-36, column 16, lines 42-45).

As per claims 3 and 23, Skinner discloses:

- An application interface which receives processed network accounting data from the first level network data collector, the second level network data collector, or the third level network data collector (column 3, lines 45-52, 57-67, column 4, lines 1-14, 24-28, 33-38, 54-57, 61-67, column 5, lines 31-34, column 7, lines 19-27, 33-34, column 10, lines 29-36, column 16, lines 42-45).

As per claims 4, 24, and 39, Skinner further discloses:

Art Unit: 2157

- The first level network data collector includes a query manager, and the second level network data collector is in communication with the first level network data collector via the query manager (column 3, lines 48-51, column 4, lines 35-38, 44-51).

As per claims 5, 25, and 37, Skinner discloses:

- The first level network data collector converts the network accounting data to a standard data format (column 4, lines 14-24).

As per claim 6, Skinner discloses:

- Each first level network data collector includes a first level data storage system and the second level network data collector includes a second level data storage system, for the storing processed network accounting data (column 3, lines 45-52, 57-67, column 4, lines 1-14, 24-28, 33-38, 54-57, 61-67, column 5, lines 31-34, column 7, lines 19-27, 33-34, column 10, lines 29-36, column 16, lines 42-45).

As per claims 7 and 26, Skinner further discloses:

- The first level data storage system and the second level data storage system each include a processed data storage location, a metadata storage location and an error recovery information storage location, wherein the processed network accounting data is stored at the processed data storage location (column 11, lines 30-35, column 12, lines 22-29, column 14, lines 50-56).

Art Unit: 2157

As per claims 8 and 27, Skinner discloses:

- After storing of the processed network accounting data, corresponding metadata is transferred to the metadata storage location and error recovery information is transferred to the error recovery information location (column 11, lines 30-35, column 12, lines 22-29, column 14, lines 50-56).

As per claim 38, Skinner discloses:

- The first set of network usage information includes defining the first network usage information at least one of network usage data or network session data (Abstract).

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 9-10, 28-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Skinner et al. (hereinafter "Skinner", 5,963,914) in view of Dyer et al. (hereinafter "Dyer", 4,361,877).

As per claims 9 and 28, Skinner does not explicitly disclose:

Art Unit: 2157

- The first level data storage system includes a first level aging policy, wherein network accounting data is removed from the first level data storage system after a time period corresponding to the first level aging policy.

However, in an analogous art, Dyer discloses removing data after it has been stored for a predetermined period of time (Abstract).

Therefore, one of ordinary skill in the art at the time the invention was made would have found it obvious to implement or incorporate a first level aging policy in Skinner's method in order to conserve storage space and make room for new, more current data.

As per claims 10 and 29, does not explicitly disclose:

- The second level data storage system includes a second level aging policy different from the first level aging policy, wherein the network accounting data is removed from the second level data storage system after a time period corresponding to the second level aging policy.

However, in an analogous art, Dyer discloses removing data after it has been stored for a predetermined period of time (Abstract).

Therefore, one of ordinary skill in the art at the time the invention was made would have found it obvious to implement or incorporate a first level aging policy in Skinner's method in order to conserve storage space and make room for new, more current data.

Art Unit: 2157

*Conclusion*

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Barbara N Burgess whose telephone number is (703) 305-3366. The examiner can normally be reached on M-F (8:00am-4:00pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ario Ettinene can be reached on (703) 308-7562. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 746-7239 for regular communications and (703) 746-7240 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-3900.

Barbara N Burgess
